

I Don't Know My STaR Chart Username (For Teachers & Librarians)

Your Principal has access to the STaR Chart Teacher List. They can see all Usernames there.

Everyone who is now or has been employed in San Antonio ISD has a unique Username.

John Smith would be JOHN.SMITH

Usernames are not case sensitive, john.smith would also work

STaR Chart Usernames are a combination of your first name and last name separated by a "dot" or period.

A second John Smith anywhere in San Antonio ISD would be JOHN.SMITH1

A third John Smith would be JOHN.SMITH2

A fourth JOHN.SMITH3 --- and so on.

When there are a number of people with the same first and last name, or you move from one campus to another within the San Antonio ISD, the Username will be the same format but followed by a number.

When all else fails, contact your Principal.
